SBC Series

Illuminate your space with this floating and near seamless series.

Upgrade your lighting experience with the luminous and redefining SBC series. This fixture features an ultra-thin face frame for a virtually frameless appearance. Engineered stretch glow fabric produces a soft glow, while specially designed LED strips provide bright, white and energy efficient illumination throughout the display. Six standard sizes and three mounting options are available. Utilize multiple fixtures for a dramatic display or use as custom signage by printing artwork directly onto the fabric.

LASER PANELS

Stunning fixtures to inspire your imagination.

Linear lighting provides a fresh appearance from conventional 2X2 and 2X4 grid fixtures, but at a price that can bust the budget. Laser Panels are cost friendly, while providing a fresh linear look within a grid format. Experiment with designed patterns and architectural lines. Ideal for offices and retail spaces, these laser-cut ceiling tiles can be used to enhance T-Bar ceilings from conventional flat panels to a designed aesthetic.

PLY23 Series

Create a statement in your space.

The Polygon series offers an interesting opportunity to create eye-catching lighting with a hanging luminaire system. The specially designed brackets allow for construction of a variety of configurations. Utilizing our popular L23 (2"x3") fixtures provides bright, white, and energy efficient illumination with up and down lighting options. Revolutionize lighting in your space with an innovative and refreshing fixture.

PLY44 Series

Let your vision take shape.

The Polygon 44P Series creates a new method for customizing the lighting in your space. Choose from multiple different bracket styles and fixture lengths to construct a unique, personalized lighting system. Utilizing our popular 4" X 4" series fixtures provides bright, white, and energy efficient illumination with up and down lighting options. Rejuvenate your space with an interesting custom fixture.

MAX Series

Make a bold statement with a minimalist design in a variety of standard powder coated finish options, as well as custom colors. Scaled to the LED module, the drop frosted diffuser surrounds the LEDs for soft lighting. Use them individually or in a continuous run, either surface, wall, or pendant mounted. Available in two widths to perfectly fit your space. Ideal for retail applications.

FPHK Series

LED Hanging Panel System.

Extend the realm of your lighting capabilities with the FPHK Series, an all-new flat panel hanging system. Customizable patterns can adapt to any space and allow for unlimited creativity. Build unique shapes and designs to add flair to your building interior.

This series can be used to mimic skylights and works well in offices, retail environments, or residential buildings.

L23H Hashtag Series

This series gives you the ability to alter your space, providing an abundant amount of lighting from a linear LED cross-fixture system. Two tiers of staggered L23 luminaires create an intriguing, contemporary look that will add beauty and sophistication to any hospitality, office, or retail space. A variety of powder coated finishes are available for both the body and end caps.
