Series DAC

LED LIGHT ENGINE Close-To-Ceiling RETROFIT

DAC is a driver-on-board technology with NEW DAC LED Light Engine providing excellent amount of light. EOS is a Retrofit Kits with UL Recognized LED Components including LED modules, heat sinks, and surge protectors. These units are low maintenance and easy to install. It is perfect for many applications including damp location.

CONSTRUCTION

Integrated powdercoated aluminum heat sink with ground wire. On board line surge protection. 12" 18 AWG Leads. AC Driver-On-Board Technology.

MOUNTING

Standard mounting options for easy install with optional hardware

DIMENSIONS

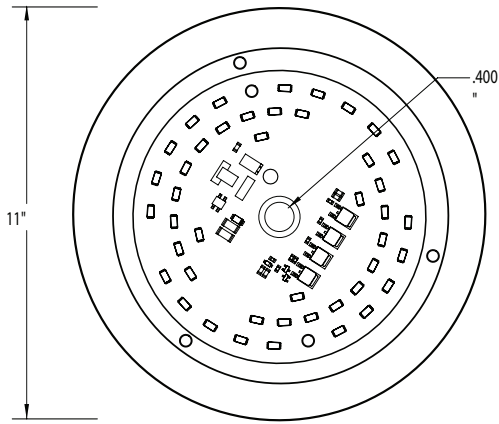

15W - 11" diameter round heat sink

25W - 14" diameter round heat sink

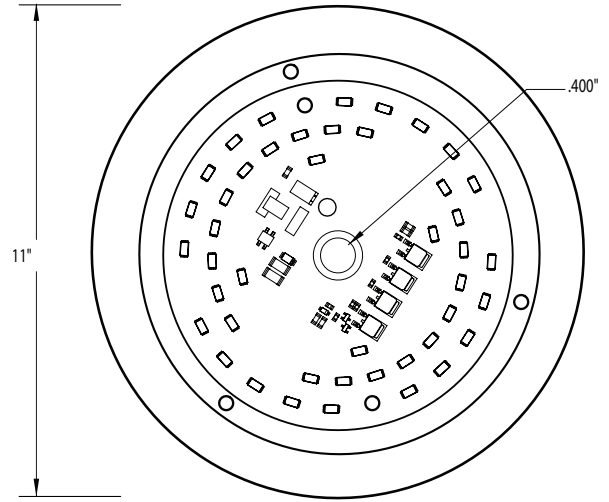

FEATURES & BENEFITS

- Input Voltage:
120VAC; 50/60Hz
- 15W and 22W Models
- Available in 3000K, 4000K and 5000K
(Consult Factory for Stock Level)
- Constant current design
- Estimated 50,000 hrs L70
- Max Lens Temp. (Tc):
80°C (see below for Tc location)
- Optical grade polycarbonate lens
- ETL/UL 1598 Classified Retrofit Kit
- 5 Year Warranty
