PART	DESCRIPTION	QTY
E	Quick connector (use with option #2)	1
F	Mounting screws	2
G	Wire nut	1
H	Power connector	2

Note: Recess kit aftermarket sold separately

OPTION #1: FLUSH MOUNT

1. Prior to installation, install mounting screws into the junction box. Do not drive screws completely to the end of the junction box.

2. Connect supply wires to wires on fixture with wire nuts or push wires into Quick Connector. Connect white to white, black to black, and copper wire to copper wire as grounding connection.

3. With the lens off of fixture, attach disk light to mounting screws, turn fixture clockwise to lock. Tighten screws to firmly hold the fixture in place.

4. Complete the installation by twisting the lens on the light.

THIS LED light is suitable to be dimmed by LUTRON # CTCL-153PD

OPTION #2: RETROFIT A RECESSED CAN

1. Prepare fixture for recessed installation.
- Remove lens by twisting counter-clockwise

- Place springs on mounting bracket then attach mounting bracket to disk light with screws

- Insert wires into Quick Connector. Black to black and white to white.

2. Attach ground wire to ground screw in recessed can

Turn E26 lamp holder into socket base.

Connect Quick Connectors

Tuck all wires into recessed can. Squeeze springs and push up into recessed can. Twist lens onto disk light.
