Remove Lens from Fixtures • Use a flat head screwdriver to gently pry out the lens of each fixture. • Install the hanging kits to the mounting surface at desired mounting • Insert the tip of the screwdriver between the edge of the locations. fixture and then pry to release the lens. • Refer to assembly drawings and hanging kit installation guide for • Set all lenses aside in a safe location for later use. more information.

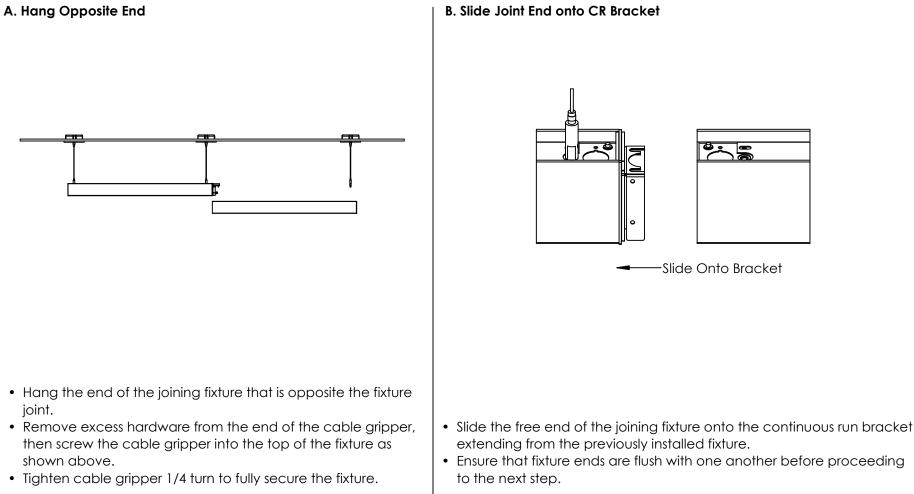

Step 4 - Hang the Beginner Fixture

Step 5 - Install the Joining Fixture(s)

Step 5 - Install Joining Fixture(s) [Cont'd]

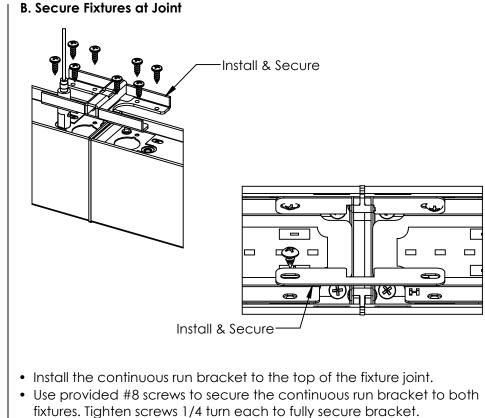

A. Install Wiring Harness

WIRING LEGEND		
BLACK	HOT	Line Voltage
WHITE	NEUTRAL	Line Voltage
GREEN	GROUND	
GRAY	DIMMING	0-10V DC
VIOLET	DIMMING	0-10V DC

- Connect wire harness between fixtures. Push the connectors into female receiver of fixture until a click is heard.
- If wire harness is unavailable refer to wiring diagram shown above.

- Reinstall the removed driver brackets to the joined fixtures. Align slot on each end with the screw holes on the driver tray of each fixture. Install and tighten screws to fully secure fixtures.
- Repeat Step 5 as needed to complete run of fixtures.

Step 6 - Power & Level Assembly

A. Connect to Power Feed Supply

WIRING LEGEND			
BLACK	HOT	Line Voltage	
WHITE	NEUTRAL	Line Voltage	
GREEN	GROUND		
GRAY	DIMMING	0-10V DC	
VIOLET	DIMMING	0-10V DC	

- Wire each fixture to the incoming power supply using the provided quick disconnect clip as shown.
- For dimming option, refer to wiring legend above.
- Use UL approved connectors only. Follow all local, state and national codes.

Adjust to level

- Adjust cables as needed to level the run of fixtures.
- Installation is now complete.

B. Level the Assembly
