**Step 2** - Prepare For Install

WIRING LEGEND		
Black	Hot	Line Voltage
White	Neutral	Line Voltage
Green	Ground	
Gray	Dimming	0-10V DC
Violet	Dimming	0-10V DC

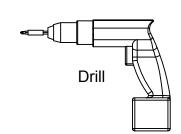

- Using a 3/4" bit, drill a hole to allow supply wiring to pass thru.
- Note: Use caution when drilling as to not damage components inside of wall.

- Wire the fixture to the incoming supply. Refer to the wiring legend above as needed.
- Note: Use UL approved connectors only. Follow all local, state and national codes

# Items Used In This Step

3/4" Drill Bit

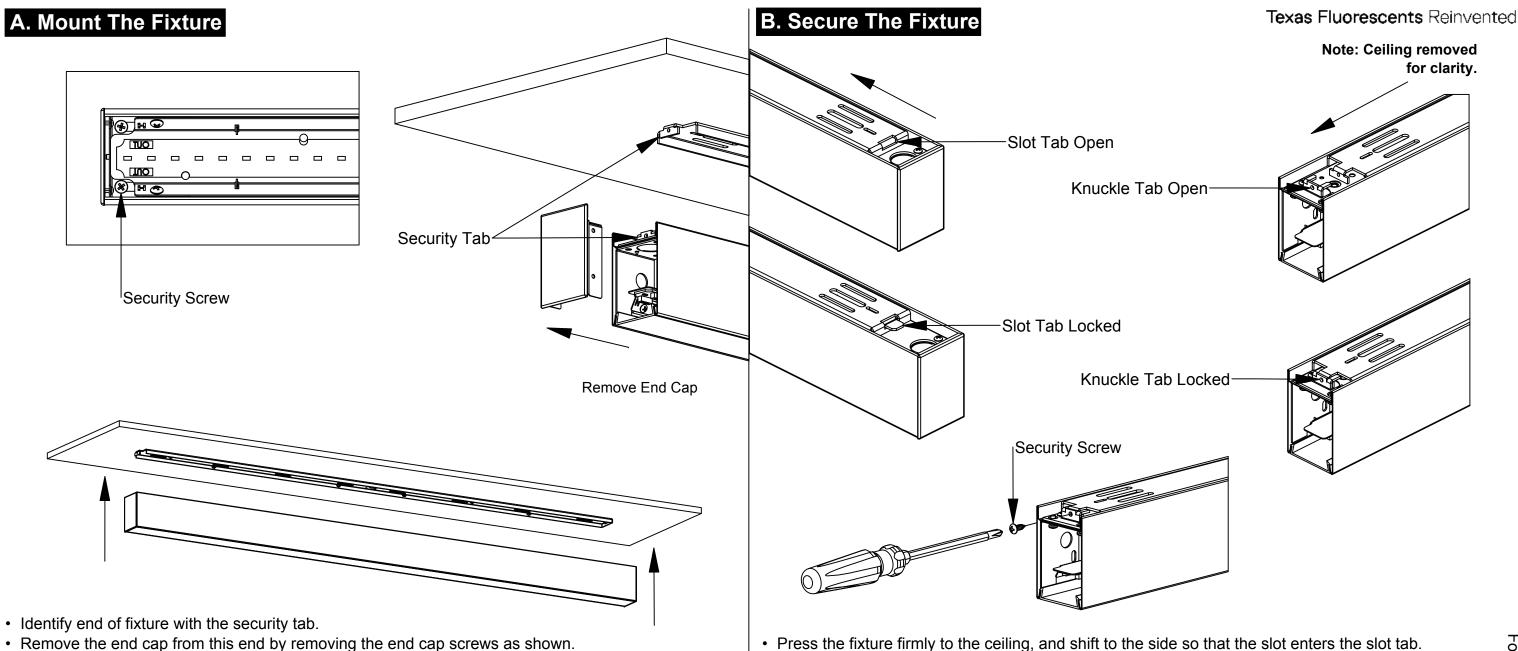

**B.** Wire The Fixture

• Lift the fixture up to the mounting surface, with security tabs on same end. Shift fixture to the side

so that the slot end of the fixture slips over the slot end of the mounting bracket.

Step 3 - Install The Fixture

#### Items Used In This Step

Screwdriver

• The knuckle tab on the mounting bracket will fit in to the knuckle tab on the fixture.

• Install a #8-32 x 1/2" security screw as shown. Re-install the end cap. Install is now complete.

#8-32 X 1/2" Machine Screw (Provided)
