High Output Multi-Function LED Strips

This High Output Multi-Function LED strip offers a family of three different strips to meet a variety of applications in warehouses, retail and utility areas. Available in a cost effective and high output open strip version, a specially designed LED frosted lens version and a narrow focused reflector version. Each version is ideal for different applications and together make a perfect family of products for many industrial and back of house commercial applications. These fixtures can be surface or pendant mounted. Driver box hinges open for easy access to the driver without removing the lens or reflector. Consult for different finishes and different sizes.

CONSTRUCTION

Housing is die-formed and embossed code 22 gauge steel. Finish is high reflectance baked white enamel. Wiring knockouts are provided on back and end of housing. Ballast cover, reflector or lens attach without tools with hinged construction to simplify ballast access.

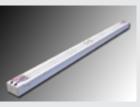

MOUNTING

Surface mount, chain hung, double stem.
