Fixed LED Rectangular Lighting Channel

Make a bold statement in your space with this dramatic geometric shaped linear line of light. Utilizing the latest in LED High Powered Lighting sized exactly to the specific channel provides micro-illumination that will not only highlight the area around it beautifully but say "look here". Ideal for general lighting applications in both commercial and residential applications for circulation spaces, high impact areas and residentially over tables, kitchen islands and home offices. The versatility and clean styling makes this an ideal choice in many applications. Suitable for dry and damp locations.

Our brand new All-In-One LED Linear Channel is new and improved to provide the easiest channel in the industry to specify, order and install. This integral driver channel provides the ideal solution for easy installations. This beautifully finished aluminum channel is so easy to install that the "do-it-yourselfer" can install in minutes and professional installers will appreciate not only the reduction in cost, but also the speed in which installation can be completed. A specially designed integral wiring harness makes assembling two channels electronically simple and efficient. A unique, mechanical joiner bracket in conjunction with our special joiner tool allows for assembling channels together with no light leak and a clean connection.

CONSTRUCTION

Anodized Aluminum Channel is lightweight, small dimensions and dissipates heat well, designed especially for the flexible LED Tape. Highly tooled plastic end caps screw onto the aluminum channel and protect the channel and LED tape from dust and keep the LED Tape clean and in optimum condition. A raceway in the back of the channel provides both a heat sink for the LED Tape and a holder for screws to pendant mount the channels. Snap-in flush frosted lens is specially formulated for smooth illumination of the LED Tape.
