LED Back Lit Flat Panel

Flat Panels have been rapidly adopted as the new standard for recessed LED lighting applications in offices, schools, hospitals, and any large hallways/corridors or spaces with T-Grid Ceilings. Saylite's new BFP Series back lit flat panels provide the same size and look of edge-lit LED panels but also offer both improved efficiency, a longer-life diffuser, and elimination of quality issues that are common with edge-lit construction. Saylite's BFP Series provides high uniformity, excellent efficiency and reduced glare for T-grid ceilings.
