# Series SHFPELP

## LED Premium Low Profile Welded Surface Flat Panels

The new SHP Shroud specially made for surface mounting flat panels with a premium look works with most ultra-thin LED flat panels in 1x4, 2x2 or 2x4. The low profile fully welded shroud is post painted and only 2.5 inches in height. There are no visible fasteners or seams. Most shrouds have seams at the corners which can take away from the modern design and clean look of the flat panel. Simply mount a well engineered mounting bracket and the Premium shroud mounts cleanly to the surface bracket. This Premium Shroud is ideal for surface or suspended applications for offices, schools, hospitality, retail and other commercial applications. Available to specify the shroud only and use with most flat panels. Consult for custom painted finishes of the shroud.

### CONSTRUCTION

Specially designed shallow shroud and flat panel combined.  
Sealed Non-IC type high grade aluminum

### MOUNTING

Surface mounting

### DIMENSIONS

1x4 Shallow Shroud  
12"W x 48"L x 3"H  
1x4 Flat Panel  
11.79"W x 7.35"L x 5"H

### FEATURES & BENEFITS
